# Erratum to: A variant of the Hough Transform for the combined detection of corners, segments, and polylines

Pilar Bachiller-Burgos<sup>\*</sup>, Luis J. Manso and Pablo Bustos

## 1 Erratum

Upon publication of the original article [1], it was noticed that in the caption of Fig. 2, there is a typographical error in the expression “ $p \geq \int p_i$ ” that defines the cell positions for which a point  $e_i$  should vote. The correct expression is “ $p > \int p_i$ ” This has now been acknowledged and corrected in this erratum. The original article has been corrected.
